

# Posters, Professors, and Progress

Wednesday, November 4, 2015

12:00 - 1:00 PM

402 Salk Hall, School of Pharmacy

The University of Pittsburgh Alpha Omicron Chapter of the Rho Chi Society is proud to host the third annual "Posters, Professors, and Progress" event. This project won a prestigious Chapter Project Grant from the National Rho Chi Society for its alignment with the Rho Chi mission, which is "to instill the desire to pursue intellectual excellence and critical inquiry to advance the profession." This event provides an opportunity to explore methods for applying the knowledge learned in class to projects that will further the profession of pharmacy and to witness first-hand the process of being a lifelong intellectual leader through the continuing efforts of faculty at the University of Pittsburgh.

Please take the opportunity to visit the faculty members to see their research. Prizes will be raffled off for students who visit at least four posters during this session.

## Faculty Presenters

- 1. Brian Potoski, PharmD, BCPS (AQ-ID)**  
Concordance across published severity of illness criteria for *Clostridium difficile* colitis and implications for initial therapy selection: does it all add up? Presented at the ASHP Midyear Clinical Meeting, Anaheim CA. Dec 2014.
- 2. Tanya Fabian PharmD, PhD, BCPP**  
Impact of clinical pharmacy services on medication adherence at Western Psychiatric Institute and Clinic's Complete Primary Care Clinic. Presented at the Inaugural 2015 Conference on The Science of Medication Adherence. Pittsburgh PA. June 2015.
- 3. Phil Empey, PharmD, PhD**  
Personalizing drug therapy through pharmacogenomics. Quantitative Systems Pharmacology Meeting. Pittsburgh PA. Nov 2013
- 4. Peg Verrico, RPh**  
Continuous renal replacement pilot project. Presented at the UPMC Presbyterian Quality and Innovation Fair, Pittsburgh PA. Sep 2015.
- 5. Heather Johnson, PharmD, BCPS**  
Effect of simeprevir administration on dose-normalized concentration of calcineurin inhibitors in solid organ transplant recipients with hepatitis C infection. Presented at the American Association of Liver Disorders Meeting San Francisco CA. Nov 2015.
- 6. Beth Minnigh, PhD**  
Small Molecule Biomarker Core (SMBC). University of Pittsburgh. Presented at Science 2015, Pittsburgh PA.
- 7. Lauren Jonkman, PharmD**  
Student research in underserved care and global health. University of Pittsburgh.
- 8. Sue Skledar, BS, MPH, FASHP**  
Algorithm for continuation of specialty medications with extended-interval dosing during inpatient stay. Presented at the American Society of Health-System Pharmacists Midyear Clinical Meeting, Anaheim, CA. December 2014.
- 9. Jim Coons, PharmD, BCPS (AQ-Cardiology)**  
Comparative safety analysis of aspirin-based dual antiplatelet therapies on incidence of major and minor bleeding events in a healthcare system. Presented at 2014 ASHP Midyear Clinical Meeting, Anaheim CA.
- 10. Luke Berenbrok, PharmD**  
Academically based community engagement: an idea exchange. Presented at the University of Pittsburgh, September 2015.
- 11. Wen Xie, PhD**  
Nuclear Receptors in Drug Metabolism and Beyond. University of Pittsburgh.
- 12. Jennifer Pruskowski, PharmD, BCPS, CGP**  
The Discussion to Ensure the Patient-centered, Health-focused, Prognosis-Appropriate, and Rational Medication regimen (**DE-PHARM**) – rational prescribing in residents with life-limiting illness. Pittsburgh PA. Nov 2015.
- 13. Thao Huynh, PharmD, BCOP**  
Assessment of Ambulatory Cancer Patients' Knowledge of Chemotherapy Treatment and Adverse Effects. Presented at the Hematology/Oncology Pharmacy Association 10<sup>th</sup> Annual Conference, New Orleans LA. March 2014.
- 14. Colleen Culley, PharmD, BCPS**  
Baseline assessment of antimicrobial-related alerts in the TheraDoc® clinical surveillance system for UPMC Skilled Nursing Facilities
- 15. Kristine Schonder, PharmD**  
Assessing Development of Professional Competence Across the Curriculum through Capstone Cases. Presented at the American Association of Colleges of Pharmacy Meeting, Washington DC. July 2015
- 16. Raman Venkataramanan, PhD**  
Population pharmacokinetics of intravenous and transdermal granisetron and its major metabolite in pregnant patients: results of a Phase 1b/Phase 2 study. Presented at the American Association of Pharmaceutical Scientists Annual Meeting. San Diego CA. Nov 2014.
